

Logan Bennett

Financial Advisor

Logan graduated from Texas Tech University where he earned a B.S. in Personal Financial Planning. The Personal Financial Planning program at Texas Tech enabled him to learn from an elite staff about comprehensive planning techniques. Those topics included investment management, income tax planning, retirement counsel and many other areas. This created a solid launching pad for his next steps. In 2011, he participated in a training institute called Kairos Workmatters Institute which helps define purpose in the marketplace. He learned practical skills and obtained a vision for servant leadership.

Logan joined Box Financial during the spring of 2013 as a Financial Advisor. He came to Box from Freedom 5:one Ministries where he was a Financial Coach in Fayetteville, Arkansas. It was here that Logan learned the growing need for wise planning and built relationships with clients to advise them in many financial areas. Logan's unique background allows him to be a great asset to the Box team. Box Financial is a great way for Logan to use his gifts by coming alongside clients and encouraging healthy stewardship of the resources that have been entrusted to them.

In 2016, Logan married Ashley who is a pediatric nurse in Dallas. They are members of Eastside Community Church and are involved with a weekly home group in the community. Ashley and Logan have a daughter, Blakely, who was born in 2020. Logan had the chance to study abroad in Europe while at Texas Tech and highly recommends visiting southern Spain to try the tapas. You can catch him cycling during his free time and listening to Drew Holcomb & The Neighbors.
